Need a solution for excess equipment inventory?

Have you invested in new equipment and need to part ways with unwanted stock taking up warehouse space?

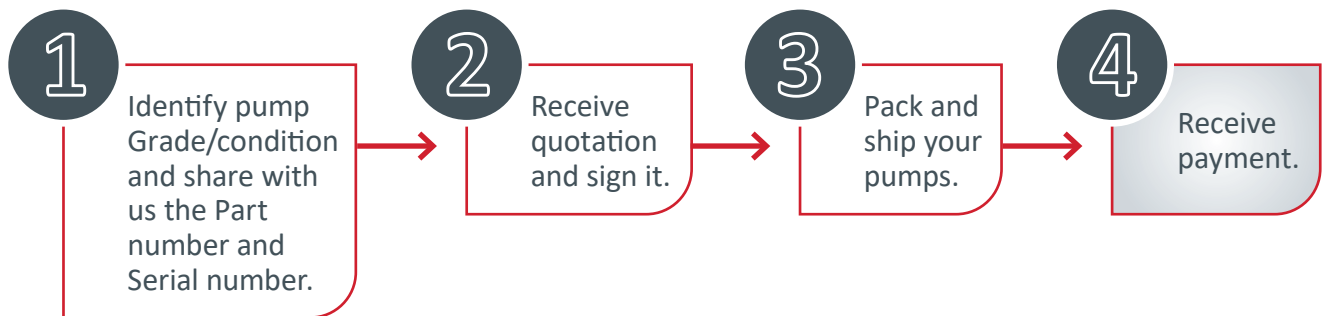

Scan to discover our solutions.

Edwards offers to take back your Vacuum Equipment through our BuyBack program.

- With our BuyBack program, you can use your unwanted vacuum pumps to make money and at the same time clear out your storage space for better utilization.
- We will take back your Edwards pumps and offer you cash in return that you can use to invest in your business.
- Reach out to us with your equipment information and in get paid in 4 simple steps!

WHICH PUMPS CAN QUALIFY FOR BUYBACK?

GRADE A PUMPS

Brand new or certified units that have not been used and require no service.

GRADE B PUMPS

Running but needs service. No major parts damage (rotors, motor stator).

GRADE C PUMPS

Crashed and needs service with major part replacement.

Once we get your vacuum pumps, our material recovery process ensures that it can be reintroduced into the circular economy. In doing so, we minimise waste, shrink your carbon footprint, and create value for customers.

Sign up for the BuyBack program and free up pump storage space!
